

Covid Update

May 26, 2022

Dear Residents and Families of Palisade Gardens and James Club

We are pleased to report that Palisade Gardens and James Club have managed at this point to contain the virus from spreading to any other resident or staff member.

Currently we still have 4 residents in isolation in Palisades and 2 in James Club. We're happy to report that everyone is doing well and feeling fine.

Covid will continue to be a risk for all, even after the outbreak is over. We want to remind all residents that when you are not in your suite you MUST have a mask on over your nose or under your chin, unless you sitting further than 6ft apart.

We want to thank everyone for abiding by our guidelines and helping to contain the virus.

Fingers crossed for a fun and action-packed week to begin next week!

Regards;

Micki McLean General Manager

Dana Dudley Director of Care
